

**PHOTO SAFARI**  
with

**MARINA CANO & MIKE FISHER**

**Kenya 11-18 August 2016**

## SUMMARY

Arrival to Nairobi. Transfer to Masai Mara and arrival to Enkewa Camp that is located at South East of Masai Mara, close to Sand River, and the Serengeti border, in the natural corridor of the great migration that comes from Serengeti.

We will have time to unpack, relax and get ready to our first safari.

Wake up in the heart of Kenya. It's 5:30 and we have the whole day ahead to experience the most beautiful face of the wild. After a delicious breakfast at the camp, we will get ready our photographic equipment for witness one of the most exciting experience on Earth: **THE GREAT MIGRATION.**

There will be days that we will take picnic lunch with us and it will be served in the bush, so we will spend a full day game drive.

Our trackers know perfectly the area and they will take us to the best places where is all the action.

This vicinity is the home of four lion families, so we might often hear them roaring in the night from our lodge. This is a very special experience. And we will also be observing and photographing them during the day.

We will take time to experience a Masai Market and a village. One of the highlights of our trip is the **HOT AIR BALLOON flight.** With a view over the river and the savanna at sunrise that will take your breath away.

The photographic opportunities are very special and unique up there.

We will explore the Masai Mara reserve waiting for the epic river crossing, thousands of wildebeest and zebras will cross, and they will be followed by all sort of predators, like lions, vultures, hyenas.

Also, there will be time to visit the extraordinary Sand River Waterfall.

Enkewa is the best ecosystem sector for watching the big 5, outside the busy areas. We will travel on state of the art 4x4 vehicles designed for photography, with a guide and a trucker, at least twice a day, one for sunrise and the other one till sunset, these are the best moments of light for taking pictures and also when many animals are more active.

This is a photographic safari, designed to all levels, but also nature and animal lovers are welcome.

Unforgettable.

# ITINERARY

## **Day 1. Nairobi / RN Masai Mara**

Arrival into Nairobi, and be collected and transfer to Wilson airport to get a domestic flight to Keekorok in Masai Mara. Here will be waiting for us the guide and the trucker from Enkewa Camp so we can start in our first game drive into the Reserve. After lunch we will drive towards the extremely beautiful area in the border with Serengeti NP, in the heart of the great migration corridor, we will go on photo safari and will enjoy our first sunset by the Tanzania border. Dinner at the Camp site.

## **Dia 2. RN Masai Mara**

We will go out with the first light to go on safari th whole day in the Masai Mara Natural Reserve. Full breakfast in the savanna, and picnic lunch by the Mara River. We will follow the migration and will try to spot the famous Mara crossing by thousands of wildebeest and zebras. We will be back at the camp site about 5 p.m. Dinner and night in Enkewa Camp.

## **Day 3. RN Masai Mara**
